BLACK ALUMINIUM FRAME

DIMMABLE LIGHTS

3 COLOR LIGHT

BACKLIT, FRONT LIGHT & BLACK FRAME

Enhance your bathroom with our sleek, modern lighted mirror. The black aluminum frame adds style and durability, while dual LED strips illuminate both front and back. Perfect for makeup, shaving, or creating ambiance, this smart mirror is built to last with over 50,000 hours of service life.

ANTI FOG FUNCTION

Say goodbye to foggy mirrors with the Aqua LED vanity mirror's built-in anti-fog feature. Whether after a hot shower or shared bathroom use, this mirror stays clear for a seamless experience. Perfect for makeup, skincare, and shaving, the quick-start anti-fog system includes a convenient one-hour auto-off function for effortless use.

3 COLORS TEMPERATURE

The Aqua smart bathroom mirror offers adjustable brightness (10%-100%) and three color options: warm (3000K), natural (4500K), and cool (6500K). Its memory function recalls your last setting, ensuring the perfect ambiance every time you step into your bathroom.

PLUG-IN OR HARDWIRED

Installing the anti-fog bathroom mirror is a breeze—choose to hardwire by cutting off the plug or simply use the plug-in option. The mirror hangs securely on your wall with two sturdy brackets, allowing for both vertical and horizontal mounting.

ILLUMINATE YOUR SPACE WITH DUAL LIGHTING

Featuring two built-in LED light strips, the Aqua LED Bathroom Mirror provides both front and back lighting. This ensures a super bright environment, perfect for grooming, makeup, or self-care. Choose between three different color temperatures (Warm - 3000K, Natural - 4000K, White - 6000K) to suit your mood or task. Easily controlled by touch buttons, the stepless dimming function lets you adjust the brightness to your exact preference.

THREE DIFFERENT COLOR TEMPERATURES

With three versatile color temperatures—3000K (Warm White) for a cozy, relaxing glow, 4000K (Neutral White) for a balanced, natural look, and 5000K (Cool White) for crisp, bright illumination—this mirror adapts to your needs effortlessly. Whether you're preparing for the day or winding down at night, the Aqua Frameless LED Mirror delivers optimal lighting with a sleek, modern design, making it a perfect addition to any bathroom or vanity space.

STAY CLEAR, STAY SAFE!

ANTI-FOG

No more wiping the mirror after a steamy shower! The built-in defogger activates when the mirror is turned on, dispersing fog from the center outwards within minutes. Keep your mirror clear in any condition, making it ideal for busy mornings or humid environments.

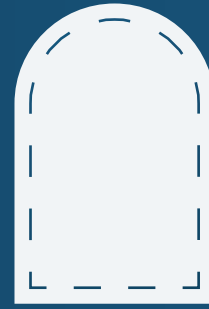

SAFE MIRROR GLASS

This LED Mirror is built with 5mm tempered glass that's both shatterproof and corrosion-resistant. Even if the glass were to break, it won't shatter into dangerous shards, making it safe for you and your family. Its durable construction ensures long-lasting performance even in high-humidity spaces.

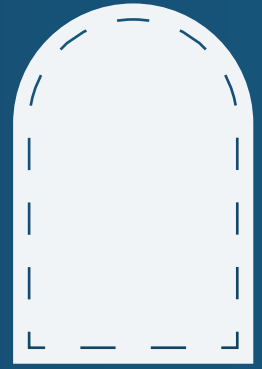

AQUA ARCHED LED MIRRORS

Transform your bathroom into a modern sanctuary with the Aqua Arched LED Bathroom Mirror. Available in two convenient sizes—20" x 30" and 24" x 36"—this mirror is designed to complement any bathroom, large or small.

CHOOSE FROM THREE ELEGANT FRAME COLORS

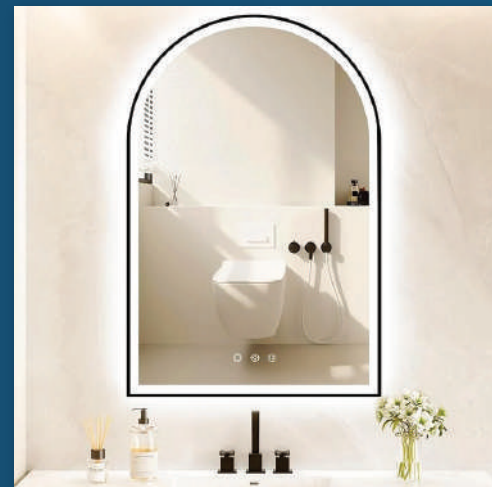

GOLD

A touch of luxury

SILVER

Sleek & contemporary look

BLACK

Bold and timeless statement

Crafted with a durable aluminum frame, this mirror is not only about aesthetics. It ensures long-lasting quality with shatterproof technology. Whether you're renovating your personal space or upgrading a commercial bathroom, the Aqua mirror blends functionality with a sophisticated design.

STYLISH & DURABLE FRAME

Available in Gold, Silver, and Black, the Arched LED Mirror offers an elegant touch to any bathroom.

The aluminum frame is not just about style—it ensures durability and a shatterproof design for lasting quality.

SUPER BRIGHT FRONT AND BACKLIGHT

Featuring high-lumen IP54 waterproof LED strips, it provides excellent illumination, enhancing your bathroom experience. With a CRI 90+, it ensures true-to-life color accuracy, perfect for grooming tasks.

ANTI-FOG FUNCTION

The Aqua Arched LED Mirror features a larger heating area for faster defogging, keeping your mirror clear in steamy conditions. Its one-hour auto-off function prevents overheating, ensuring safety and energy efficiency while providing a fog-free experience.

Short touch to change 3 color temp
Long press to adjust brightness

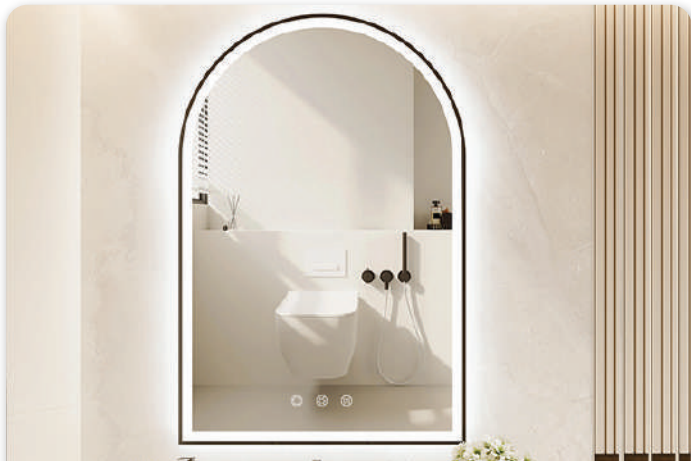

3 COLORS & DIMMABLE

Choose from 3 color temperatures—White (6000K) for clarity, Natural (4000K) for balanced lighting, and Warm (3000K) for a cozy ambiance. With a short touch, you can easily switch between color options, and a long press allows you to adjust the brightness to your perfect level, ensuring customizable lighting for any mood or task.

EASY TO INSTALL

Installation is effortless with the included mounting plate—the mirror can be hardwired or plugged in using the 59-inch power cord. Plus, the mirror features brightness memory, which remembers your preferred light settings for a seamless experience every time you turn it on.
